https://www.tensorflow.org/api_docs/python/tf/compat/v1/assert_rank

Assert x has rank equal to rank.

Function Signatures

```
tf.compat.v1.assert_rank( x, rank, data=None, summarize=None,
message=None, name=None )
with tf.control_dependencies([tf.compat.v1.assert_rank(x,
2)]): output = tf.reduce_sum(x)
```

Code Examples

```
tf.compat.v1.assert_rank(  
x, rank, data=None, summarize=None, message=None, name=None  
)
```

```
tf.compat.v1.assert_rank(  
x, rank, data=None, summarize=None, message=None, name=None  
)
```

```
with tf.control_dependencies([tf.compat.v1.assert_rank(x, 2)]):  
output = tf.reduce_sum(x)
```

```
with tf.control_dependencies([tf.compat.v1.assert_rank(x, 2)]):  
output = tf.reduce_sum(x)
```
