https://www.tensorflow.org/api_docs/python/tf/compat/v1/config/threading

Public API for tf._api.v2.config.threading namespace

Function Signatures

```
get_inter_op_parallelism_threads(...)  
get_intra_op_parallelism_threads(...)  
set_inter_op_parallelism_threads(...)  
set_intra_op_parallelism_threads(...)
```

Documentation

Public API for `tf._api.v2.config.threading` namespace

Functions

`get_inter_op_parallelism_threads(...)`: Get number of threads used for parallelism between independent operations.

`get_intra_op_parallelism_threads(...)`: Get number of threads used within an individual op for parallelism.

`set_inter_op_parallelism_threads(...)`: Set number of threads used for parallelism between independent operations.

`set_intra_op_parallelism_threads(...)`: Set number of threads used within an individual op for parallelism.
