https://www.tensorflow.org/api_docs/python/tf/compat/v1/graph_util/extract_sub_graph

*Extract the subgraph that can reach any of the nodes in 'dest_nodes'.
(deprecated)*

Function Signatures

```
tf.compat.v1.graph_util.extract_sub_graph( graph_def,  
dest_nodes )
```

Code Examples

```
tf.compat.v1.graph_util.extract_sub_graph(  
graph_def, dest_nodes  
)
```

```
tf.compat.v1.graph_util.extract_sub_graph(  
graph_def, dest_nodes  
)
```

Documentation

Extract the subgraph that can reach any of the nodes in 'dest_nodes'.
(deprecated)
