[https://www.tensorflow.org/api\\_docs/python/tf/compat/v1/graph\\_util/tensor\\_shape\\_from\\_node\\_def\\_name](https://www.tensorflow.org/api_docs/python/tf/compat/v1/graph_util/tensor_shape_from_node_def_name)

*Convenience function to get a shape from a NodeDef's input string.  
(deprecated)*

## Function Signatures

```
tf.compat.v1.graph_util.tensor_shape_from_node_def_name(  
graph, input_name )
```

## Code Examples

```
tf.compat.v1.graph_util.tensor_shape_from_node_def_name(  
graph, input_name  
)
```

```
tf.compat.v1.graph_util.tensor_shape_from_node_def_name(  
graph, input_name  
)
```

# Documentation

---

Convenience function to get a shape from a NodeDef's input string. (deprecated)
