https://www.tensorflow.org/api_docs/python/tf/compat/v1/initializers/he_uniform

He uniform variance scaling initializer.

Function Signatures

```
tf.compat.v1.initializers.he_uniform( seed=None )  
sqrt(6 / fan_in)
```

Code Examples

```
tf.compat.v1.initializers.he_uniform(  
seed=None  
)
```

```
tf.compat.v1.initializers.he_uniform(  
seed=None  
)
```

Documentation

He uniform variance scaling initializer.

It draws samples from a uniform distribution within $[-limit, limit]$

where $limit$ is $\sqrt{6 / fan_in}$

where fan_in is the number of input units in the weight tensor.

Returns
