https://www.tensorflow.org/api_docs/python/tf/compat/v1/math/rsqrt

Computes reciprocal of square root of x element-wise.

Function Signatures

```
tf.compat.v1.math.rsqrt( x, name=None )  
x = tf.constant([2., 0., -2.])  
tf.math.rsqrt(x)  
numpy=array([0.707, inf, nan], dtype=float32)>
```

Code Examples

```
tf.compat.v1.math.rsqrt(  
x, name=None  
)
```

```
tf.compat.v1.math.rsqrt(  
x, name=None  
)
```

```
x = tf.constant([2., 0., -2.])  
tf.math.rsqrt(x)
```

```
x = tf.constant([2., 0., -2.])
```

```
tf.math.rsqrt(x)
```

```
numpy=array([0.707, inf, nan], dtype=float32)>
```

Documentation

Computes reciprocal of square root of x element-wise.

For example:

Returns
