https://www.tensorflow.org/api_docs/python/tf/compat/v1/math/special/fresnel_sin

Computes Fresnel's sine integral of x element-wise.

Function Signatures

```
tf.compat.v1.math.special.fresnel_sin( x, name=None )  
sin(t^2)
```

Code Examples

```
tf.compat.v1.math.special.fresnel_sin(  
x, name=None  
)
```

```
tf.compat.v1.math.special.fresnel_sin(  
x, name=None  
)
```

```
tf.math.special.fresnel_sin([-1., -0.1, 0.1, 1.]).numpy()  
array([-0.43825912, -0.00052359,  0.00052359,  0.43825912],  
dtype=float32)
```

```
tf.math.special.fresnel_sin([-1., -0.1, 0.1, 1.]).numpy()
```

```
array([-0.43825912, -0.00052359,  0.00052359,  0.43825912],  
dtype=float32)
```

Documentation

Computes Fresnel's sine integral of x element-wise.

The Fresnel sine integral is defined as the integral of $\sin(t^2)$ from 0 to x , with the domain of definition all real numbers.

This implementation is based off of the Cephes math library.

Returns

scipy compatibility

Equivalent to `scipy.special.fresnel` first output.
