https://www.tensorflow.org/api_docs/python/tf/compat/v1/nn/relu_layer

*Computes $\text{Relu}(x * \text{weight} + \text{biases})$.*

Function Signatures

```
tf.compat.v1.nn.relu_layer( x, weights, biases, name=None )
```

Code Examples

```
tf.compat.v1.nn.relu_layer(  
x, weights, biases, name=None  
)
```

```
tf.compat.v1.nn.relu_layer(  
x, weights, biases, name=None  
)
```

Documentation

Computes $\text{Relu}(x * \text{weight} + \text{biases})$.
