https://www.tensorflow.org/api_docs/python/tf/compat/v1/ragged/RaggedTensorValue

Represents the value of a RaggedTensor.

Function Signatures

```
tf.compat.v1.ragged.RaggedTensorValue( values, row_splits )
```

Code Examples

```
tf.compat.v1.ragged.RaggedTensorValue(  
values, row_splits  
)
```

```
tf.compat.v1.ragged.RaggedTensorValue(  
values, row_splits  
)
```

Documentation

Represents the value of a RaggedTensor.

See `tf.RaggedTensor` for a description of ragged tensors.

Attributes

Methods

`to_list`

[View source](#)

Returns this ragged tensor value as a nested Python list.
