https://www.tensorflow.org/api_docs/python/tf/compat/v1/saved_model/build_tensor_info

Utility function to build TensorInfo proto from a Tensor. (deprecated)

Function Signatures

```
tf.compat.v1.saved_model.build_tensor_info( tensor )
```

Code Examples

```
tf.compat.v1.saved_model.build_tensor_info(  
tensor  
)
```

```
tf.compat.v1.saved_model.build_tensor_info(  
tensor  
)
```

Documentation

Utility function to build TensorInfo proto from a Tensor. (deprecated)

more details.

`tf.compat.v1.saved_model.utils.build_tensor_info`

Migrate to TF2

This API is not compatible with eager execution as tensor needs to be a graph tensor, and there is no replacement for it in TensorFlow 2.x. To start writing programs using TensorFlow 2.x, please refer to the Effective TensorFlow 2 guide.
