https://www.tensorflow.org/api_docs/python/tf/compat/v1/saved_model/is_valid_signature

Determine whether a SignatureDef can be served by TensorFlow Serving.

Function Signatures

```
tf.compat.v1.saved_model.is_valid_signature( signature_def )
```

Code Examples

```
tf.compat.v1.saved_model.is_valid_signature(  
signature_def  
)
```

```
tf.compat.v1.saved_model.is_valid_signature(  
signature_def  
)
```

Documentation

Determine whether a SignatureDef can be served by TensorFlow Serving.
