https://www.tensorflow.org/api_docs/python/tf/compat/v1/serialize_sparse

Serialize a SparseTensor into a 3-vector (1-D Tensor) object.

Function Signatures

```
tf.compat.v1.serialize_sparse( sp_input, name=None,  
out_type=tf.dtypes.string )
```

Code Examples

```
tf.compat.v1.serialize_sparse(  
    sp_input,  
    name=None,  
    out_type=tf.dtypes.string  
)
```

```
tf.compat.v1.serialize_sparse(  
    sp_input,  
    name=None,  
    out_type=tf.dtypes.string  
)
```

```
tf.dtypes.string
```

Documentation

Serialize a SparseTensor into a 3-vector (1-D Tensor) object.
