https://www.tensorflow.org/api_docs/python/tf/compat/v1/sparse_segment_sqrt_n

Computes the sum along sparse segments of a tensor divided by the $\sqrt{N}$.

Function Signatures

```
tf.compat.v1.sparse_segment_sqrt_n( data, indices,  
segment_ids, name=None, num_segments=None,  
sparse_gradient=False )
```

Code Examples

```
tf.compat.v1.sparse_segment_sqrt_n(  
    data,  
    indices,  
    segment_ids,  
    name=None,  
    num_segments=None,  
    sparse_gradient=False  
)
```

```
tf.compat.v1.sparse_segment_sqrt_n(  
    data,  
    indices,  
    segment_ids,  
    name=None,  
    num_segments=None,  
    sparse_gradient=False  
)
```

Documentation

Computes the sum along sparse segments of a tensor divided by the $\sqrt{N}$.
