---

*Assert that the tensor does not contain any NaN's or Inf's.*

## Function Signatures

---

```
tf.compat.v1.verify_tensor_all_finite( t=None, msg=None,
name=None, x=None, message=None )
```

## Code Examples

---

```
tf.compat.v1.verify_tensor_all_finite(
t=None, msg=None, name=None, x=None, message=None
)
```

```
tf.compat.v1.verify_tensor_all_finite(
t=None, msg=None, name=None, x=None, message=None
)
```

# Documentation

---

Assert that the tensor does not contain any NaN's or Inf's.
