https://www.tensorflow.org/api_docs/python/tf/compat/v1/distributions/RegisterKL

Decorator to register a KL divergence implementation function.

Function Signatures

```
tf.compat.v1.distributions.RegisterKL( dist_cls_a, dist_cls_b
)
__call__( kl_fn )
```

Code Examples

```
tf.compat.v1.distributions.RegisterKL(  
    dist_cls_a, dist_cls_b  
)
```

```
tf.compat.v1.distributions.RegisterKL(  
    dist_cls_a, dist_cls_b  
)
```

```
__call__(  
    kl_fn  
)
```

```
__call__(  
    kl_fn  
)
```

Documentation

Decorator to register a KL divergence implementation function.

Usage:

```
@distributions.RegisterKL(distributions.Normal, distributions.Normal)
def _kl_normal_mvn(norm_a, norm_b):
    # Return KL(norm_a || norm_b)
```

Methods

```
## __call__
```

[View source](#)

Perform the KL registration.
