https://www.tensorflow.org/api_docs/python/tf/compat/v1/get_collection

Wrapper for Graph.get_collection() using the default graph.

Function Signatures

```
Graph.get_collection()  
tf.compat.v1.get_collection( key, scope=None ) -> list[Any]
```

Code Examples

```
tf.compat.v1.get_collection(  
key, scope=None  
) -> list[Any]
```

```
tf.compat.v1.get_collection(  
key, scope=None  
) -> list[Any]
```

Documentation

Wrapper for `Graph.get_collection()` using the default graph.

Used in the notebooks

- Validating correctness & numerical equivalence

See `tf.Graph.get_collection`
for more details.

Returns

`## eager compatibility`

Collections are not supported when eager execution is enabled.
