Documentation

Public API for `tf._api.v2.math.special` namespace

Functions

`bessel_i0(...)`: Computes the Bessel i_0 function of x element-wise.

`bessel_i0e(...)`: Computes the Bessel i_0e function of x element-wise.

`bessel_i1(...)`: Computes the Bessel i_1 function of x element-wise.

`bessel_i1e(...)`: Computes the Bessel i_1e function of x element-wise.

`bessel_j0(...)`: Computes the Bessel j_0 function of x element-wise.

`bessel_j1(...)`: Computes the Bessel j_1 function of x element-wise.

`bessel_k0(...)`: Computes the Bessel k_0 function of x element-wise.

`bessel_k0e(...)`: Computes the Bessel k_0e function of x element-wise.

`bessel_k1(...)`: Computes the Bessel k_1 function of x element-wise.

`bessel_k1e(...)`: Computes the Bessel k_1e function of x element-wise.

`bessel_y0(...)`: Computes the Bessel y_0 function of x element-wise.

`bessel_y1(...)`: Computes the Bessel y_1 function of x element-wise.

`dawson(...)`: Computes Dawson's integral of x element-wise.

`expint(...)`: Computes the Exponential integral of x element-wise.

`fresnel_cos(...)`: Computes Fresnel's cosine integral of x element-wise.

`fresnel_sin(...)`: Computes Fresnel's sine integral of x element-wise.

`spence(...)`: Computes Spence's integral of x element-wise.
