https://www.tensorflow.org/api_docs/python/tf/compat/v1/saved_model/loader

Public API for tf._api.v2.saved_model.loader namespace

Function Signatures

```
load(...)  
maybe_saved_model_directory(...)
```

Documentation

Public API for tf._api.v2.saved_model.loader namespace

Functions

`load(...)`: Loads the model from a SavedModel as specified by tags. (deprecated)

`maybe_saved_model_directory(...)`: Checks whether the provided export directory could contain a SavedModel.
