Public API for `tf._api.v2.sets` namespace

Function Signatures

```
difference(...)
intersection(...)
```

Documentation

Public API for tf._api.v2.sets namespace

Functions

`difference(...)`: Compute set difference of elements in last dimension of a and b.

`intersection(...)`: Compute set intersection of elements in last dimension of a and b.

`set_difference(...)`: Compute set difference of elements in last dimension of a and b.

`set_intersection(...)`: Compute set intersection of elements in last dimension of a and b.

`set_size(...)`: Compute number of unique elements along last dimension of a.

`set_union(...)`: Compute set union of elements in last dimension of a and b.

`size(...)`: Compute number of unique elements along last dimension of a.

`union(...)`: Compute set union of elements in last dimension of a and b.
