

torch.cuda.device_memory_used#

https://pytorch.org/docs/stable/generated/torch.cuda.device_memory_used.html

Description:

Return used global (device) memory in bytes as given by nvidia-smi or amd-smi. device (torch.device or int, optional) – selected device. Returns statistic for the current device, given by current_device(), if device is None (default).

Function Signature

```
torch.cuda.device_memory_used(device=None)[source]#
```

Parameters

Return type

Returns:

int

Detailed Documentation

Documentation

Return used global (device) memory in bytes as given by nvidia-smi or amd-smi.

device (torch.device or int, optional) – selected device. Returns statistic for the current device, given by current_device(), if device is None (default).

Return used global (device) memory in bytes as given by nvidia-smi or amd-smi.

device (torch.device or int, optional) – selected device. Returns statistic for the current device, given by current_device(), if device is None (default).
