

torch.cuda.get_rng_state#

https://pytorch.org/docs/stable/generated/torch.cuda.get_rng_state.html

Description:

Return the random number generator state of the specified GPU as a ByteTensor. device (torch.device or int, optional) – The device to return the RNG state of. Default: 'cuda' (i.e., torch.device('cuda'), the current CUDA device). This function eagerly initializes CUDA.

Function Signature

```
torch.cuda.get_rng_state(device='cuda')[source]#
```

Parameters

Return type

Returns:

Tensor

Notes & Warnings

 **WARNING** This function eagerly initializes CUDA.

Detailed Documentation

Documentation

Return the random number generator state of the specified GPU as a ByteTensor.

device (torch.device or int, optional) – The device to return the RNG state of. Default: 'cuda' (i.e., torch.device('cuda'), the current CUDA device).

This function eagerly initializes CUDA.

Return the random number generator state of the specified GPU as a ByteTensor.

device (torch.device or int, optional) – The device to return the RNG state of. Default: 'cuda' (i.e., torch.device('cuda'), the current CUDA device).

This function eagerly initializes CUDA.
