

torch.cuda.get_rng_state_all#

https://pytorch.org/docs/stable/generated/torch.cuda.get_rng_state_all.html#

Description:

Return a list of ByteTensor representing the random number states of all devices.

Function Signature

```
torch.cuda.get_rng_state_all()[source]#
```

Return type

Returns:

list[torch.Tensor]

Detailed Documentation

Documentation

Return a list of ByteTensor representing the random number states of all devices.

Return a list of ByteTensor representing the random number states of all devices.
