

torch.cuda.memory.reset_peak_host_me

https://pytorch.org/docs/stable/generated/torch.cuda.memory.reset_peak_host_me

Description:

Reset the “peak” stats tracked by the host memory allocator. See `host_memory_stats()` for details. Peak stats correspond to the “peak” key in each individual stat dict.

Function Signature

```
torch.cuda.memory.reset_peak_host_memory_stats()[source]#
```
