

torch.cuda.memory_usage#

https://pytorch.org/docs/stable/generated/torch.cuda.memory_usage.html

Description:

Return the percent of time over the past sample period during which global (device) memory was being read or written as given by `nvidia-smi`.
`device` (`torch.device` or `int`, optional) – selected device. Returns statistic for the current device, given by `current_device()`, if `device` is `None` (default). Warning: Each sample period may be between 1 second and 1/6 second, depending on the product being queried.

Function Signature

```
torch.cuda.memory_usage(device=None)[source]#
```

Parameters

Return type

Returns:

`int`

Detailed Documentation

Documentation

Return the percent of time over the past sample period during which global (device) memory was being read or written as given by nvidia-smi.

device (torch.device or int, optional) – selected device. Returns statistic for the current device, given by current_device(), if device is None (default).

Warning: Each sample period may be between 1 second and 1/6 second, depending on the product being queried.

Return the percent of time over the past sample period during which global (device) memory was being read or written as given by nvidia-smi.

device (torch.device or int, optional) – selected device. Returns statistic for the current device, given by current_device(), if device is None (default).

Warning: Each sample period may be between 1 second and 1/6 second, depending on the product being queried.
