

torch.cuda.nvtx.range_pop#

[https://pytorch.org/docs/stable/generated/torch.cuda.nvtx.range_pop.html#tor](https://pytorch.org/docs/stable/generated/torch.cuda.nvtx.range_pop.html#torch.cuda.nvtx.range_pop)

Description:

Pop a range off of a stack of nested range spans. Returns the zero-based depth of the range that is ended.

Function Signature

```
torch.cuda.nvtx.range_pop()[source]#
```

Detailed Documentation

Documentation

Pop a range off of a stack of nested range spans. Returns the zero-based depth of the range that is ended.

Pop a range off of a stack of nested range spans. Returns the zero-based depth of the range that is ended.
