

torch.cuda.nvtx.range_push#

https://pytorch.org/docs/stable/generated/torch.cuda.nvtx.range_push.html

Description:

Push a range onto a stack of nested range span. Returns zero-based depth of the range that is started. msg (str) – ASCII message to associate with range

Function Signature

```
torch.cuda.nvtx.range_push(msg)[source]#
```

Parameters

Detailed Documentation

Documentation

Push a range onto a stack of nested range span. Returns zero-based depth of the range that is started.

msg (str) – ASCII message to associate with range

Push a range onto a stack of nested range span. Returns zero-based depth of the range that is started.

msg (str) – ASCII message to associate with range
