

LazyConvTranspose2d#

<https://pytorch.org/docs/stable/generated/torch.nn.LazyConvTranspose2d.html#>

Description:

A `torch.nn.ConvTranspose2d` module with lazy initialization of the `in_channels` argument. The `in_channels` argument of the `ConvTranspose2d` is inferred from the `input.size(1)`. The attributes that will be lazily initialized are `weight` and `bias`. Check the `torch.nn.modules.lazy.LazyModuleMixin` for further documentation on lazy modules and their limitations.

`out_channels` (int) – Number of channels produced by the convolution

`kernel_size` (int or tuple) – Size of the convolving kernel

Function Signature

```
class torch.nn.LazyConvTranspose2d(out_channels,
kernel_size, stride=1, padding=0, output_padding=0,
groups=1, bias=True, dilation=1, padding_mode='zeros',
device=None, dtype=None)[source]#
```

Parameters

```
cls_to_become[source]#
```

Notes & Warnings

NOTE

Detailed Documentation

Documentation

A `torch.nn.ConvTranspose2d` module with lazy initialization of the `in_channels` argument.

The `in_channels` argument of the `ConvTranspose2d` is inferred from the `input.size(1)`. The attributes that will be lazily initialized are `weight` and `bias`.

Check the `torch.nn.modules.lazy.LazyModuleMixin` for further documentation on lazy modules and their limitations.

`out_channels` (int) – Number of channels produced by the convolution

`kernel_size` (int or tuple) – Size of the convolving kernel

`stride` (int or tuple, optional) – Stride of the convolution. Default: 1

`padding` (int or tuple, optional) – $\text{dilation} * (\text{kernel_size} - 1)$ - padding zero-padding will be added to both sides of each dimension in the input. Default: 0

`output_padding` (int or tuple, optional) – Additional size added to one side of each

dimension in the output shape. Default: 0

groups (int, optional) – Number of blocked connections from input channels to output channels. Default: 1

bias (bool, optional) – If True, adds a learnable bias to the output. Default: True

dilation (int or tuple, optional) – Spacing between kernel elements. Default: 1
