

torch.nn.functional.adaptive_avg_pool1d

https://pytorch.org/docs/stable/generated/torch.nn.functional.adaptive_avg_pool1d.html

Description:

Applies a 1D adaptive average pooling over an input signal composed of several input planes. See `AdaptiveAvgPool1d` for details and output shape. `output_size` – the target output size (single integer)

Function Signature

```
torch.nn.functional.adaptive_avg_pool1d(input, output_size)
→ Tensor#
```

Parameters

Detailed Documentation

Documentation

Applies a 1D adaptive average pooling over an input signal composed of several input planes.

See `AdaptiveAvgPool1d` for details and output shape.

`output_size` – the target output size (single integer)

Applies a 1D adaptive average pooling over an input signal composed of several input planes.

See `AdaptiveAvgPool1d` for details and output shape.

`output_size` – the target output size (single integer)
