

torch.nn.functional.adaptive_avg_pool2d

https://pytorch.org/docs/stable/generated/torch.nn.functional.adaptive_avg_pool2d.html

Description:

Apply a 2D adaptive average pooling over an input signal composed of several input planes. See `AdaptiveAvgPool2d` for details and output shape. `output_size` (None) – the target output size (single integer or double-integer tuple)

Function Signature

```
torch.nn.functional.adaptive_avg_pool2d(input, output_size)
[source]#
```

Parameters

Return type

Returns:

Tensor

Detailed Documentation

Documentation

Apply a 2D adaptive average pooling over an input signal composed of several input planes.

See `AdaptiveAvgPool2d` for details and output shape.

`output_size` (None) – the target output size (single integer or double-integer tuple)

Apply a 2D adaptive average pooling over an input signal composed of several input planes.

See `AdaptiveAvgPool2d` for details and output shape.

`output_size` (None) – the target output size (single integer or double-integer tuple)
