

torch.nn.functional.hardtanh#

<https://pytorch.org/docs/stable/generated/torch.nn.functional.hardtanh.html>

Description:

Applies the HardTanh function element-wise. See Hardtanh for more details.

Function Signature

```
torch.nn.functional.hardtanh(input, min_val=-1., max_val=1.,  
inplace=False) → Tensor[source]#
```

Return type

Returns:

Tensor

Detailed Documentation

Documentation

Applies the HardTanh function element-wise. See Hardtanh for more details.

Applies the HardTanh function element-wise. See Hardtanh for more details.
