

torch.nn.functional.mish#

<https://pytorch.org/docs/stable/generated/torch.nn.functional.mish.html>

Description:

Apply the Mish function, element-wise. Mish: A Self Regularized Non-Monotonic Neural Activation Function. See Mish: A Self Regularized Non-Monotonic Neural Activation Function See Mish for more details.

Function Signature

```
torch.nn.functional.mish(input, inplace=False)[source]#
```

Return type

Returns:

Tensor

Notes & Warnings

NOTE

Note See [Mish: A Self Regularized Non-Monotonic Neural Activation Function](#)

Detailed Documentation

Documentation

Apply the Mish function, element-wise.

Mish: A Self Regularized Non-Monotonic Neural Activation Function.
