

torch.nn.functional.selu#

<https://pytorch.org/docs/stable/generated/torch.nn.functional.selu.html>

Description:

Applies element-wise, $\text{SELU}(x) = \text{scale} * (\max(0, x) + \min(0, \alpha * (\exp(x) - 1)))$

$$\text{SELU}(x) = \text{scale} * (\max(0, x) + \min(0, \alpha * (\exp(x) - 1)))$$

with $\alpha = 1.6732632423543772848170429916717$ and $\text{scale} = 1.0507009873554804934193349852946$

See SELU for more details.

Function Signature

```
torch.nn.functional.selu(input, inplace=False) →  
Tensor[source]#
```

Return type

Returns:

Tensor

Detailed Documentation

Documentation

Applies element-wise, $\text{SELU}(x) = \text{scale} * (\max(0, x) + \min(0, \alpha * (\exp(x) - 1)))$ $\text{SELU}(x) = \text{scale} * (\max(0, x) + \min(0, \alpha * (\exp(x) - 1)))$ with $\alpha = 1.6732632423543772848170429916717$ and $\text{scale} = 1.0507009873554804934193349852946$

See SELU for more details.
