

torch.nn.functional.sigmoid#

<https://pytorch.org/docs/stable/generated/torch.nn.functional.sigmoid.html>

Description:

Applies the element-wise function $\text{Sigmoid}(x) = \frac{1}{1 + \exp(-x)}$. See [Sigmoid](#) for more details.

Function Signature

```
torch.nn.functional.sigmoid(input) → Tensor[source]#
```

Detailed Documentation

Documentation

Applies the element-wise function $\text{Sigmoid}(x) = \frac{1}{1 + \exp(-x)}$

See [Sigmoid](#) for more details.

Applies the element-wise function $\text{Sigmoid}(x) = \frac{1}{1 + \exp(-x)}$
