

torch.nn.functional.threshold#

<https://pytorch.org/docs/stable/generated/torch.nn.functional.threshold.html>

Description:

Apply a threshold to each element of the input Tensor. See Threshold for more details.

Function Signature

```
torch.nn.functional.threshold(input, threshold, value,  
inplace=False)[source]#
```

Return type

Returns:

Tensor

Detailed Documentation

Documentation

Apply a threshold to each element of the input Tensor.

See [Threshold](#) for more details.

Apply a threshold to each element of the input Tensor.
