

torch.nn.functional.triplet_margin_with_d

https://pytorch.org/docs/stable/generated/torch.nn.functional.triplet_margin

Description:

Compute the triplet margin loss for input tensors using a custom distance function. See TripletMarginWithDistanceLoss for details.

Function Signature

```
torch.nn.functional.triplet_margin_with_distance_loss(anchor
, positive, negative, *, distance_function=None, margin=1.0,
swap=False, reduction='mean')[source]#
```

Return type

Returns:

Tensor

Detailed Documentation

Documentation

Compute the triplet margin loss for input tensors using a custom distance function.

See `TripletMarginWithDistanceLoss` for details.

Compute the triplet margin loss for input tensors using a custom distance function.

See `TripletMarginWithDistanceLoss` for details.
