

torch.nn.parameter.is_lazy#

https://pytorch.org/docs/stable/generated/torch.nn.parameter.is_lazy.html

Description:

Returns whether param is an UninitializedParameter or UninitializedBuffer. param (Any) – the input to check.

Function Signature

```
torch.nn.parameter.is_lazy(param)[source]#
```

Parameters

Return type

Returns:

bool

Detailed Documentation

Documentation

Returns whether param is an UninitializedParameter or UninitializedBuffer.

param (Any) – the input to check.

Returns whether param is an UninitializedParameter or UninitializedBuffer.

param (Any) – the input to check.
