

# torch.optim.adamax.adamax#

<https://pytorch.org/docs/stable/generated/torch.optim.adamax.adamax.html>

## Description:

Functional API that performs adamax algorithm computation. See Adamax for details.

## Function Signature

---

```
torch.optim.adamax.adamax(params, grads, exp_avgs, exp_infs,
state_steps, foreach=None, maximize=False,
differentiable=False, capturable=False, has_complex=False,
*, eps, beta1, beta2, lr, weight_decay)[source]#
```

# Detailed Documentation

---

## Documentation

Functional API that performs adamax algorithm computation.

See Adamax for details.

Functional API that performs adamax algorithm computation.
