

torch.optim.adamw.adamw#

<https://pytorch.org/docs/stable/generated/torch.optim.adamw.adamw.html>

Description:

Functional API that performs AdamW algorithm computation. See AdamW for details.

Function Signature

```
torch.optim.adamw.adamw(params, grads, exp_avgs,  
exp_avg_sqs, max_exp_avg_sqs, state_steps, foreach=None,  
capturable=False, differentiable=False, fused=None,  
grad_scale=None, found_inf=None, has_complex=False, *,  
amsgrad, beta1, beta2, lr, weight_decay, eps, maximize)  
[source]#
```

Detailed Documentation

Documentation

Functional API that performs AdamW algorithm computation.

See AdamW for details.

Functional API that performs AdamW algorithm computation.
