

torch.optim.asgd.asgd#

<https://pytorch.org/docs/stable/generated/torch.optim.asgd.asgd.html>

Description:

Functional API that performs asgd algorithm computation. See ASGD for details.

Function Signature

```
torch.optim.asgd.asgd(params, grads, axes, mus, etas,
state_steps, foreach=None, maximize=False,
differentiable=False, capturable=False, has_complex=False,
*, lambd, lr, t0, alpha, weight_decay)[source]#
```

Detailed Documentation

Documentation

Functional API that performs asgd algorithm computation.

See ASGD for details.
