

torch.accelerator.set_device_idx#

[https://pytorch.org/docs/stable/generated/torch.accelerator.set_device_idx.h](https://pytorch.org/docs/stable/generated/torch.accelerator.set_device_idx.html)

Description:

(Deprecated) Set the current device index to a given device. device (torch.device, str, int) – a given device that must match the current accelerator device type. torch.accelerator.set_device_idx() is deprecated in favor of torch.accelerator.set_device_index() and will be removed in a future PyTorch release.

Function Signature

```
torch.accelerator.set_device_idx(device, /)[source]#
```

Parameters

Notes & Warnings

WARNING

`torch.accelerator.set_device_idx()` is deprecated in favor of `torch.accelerator.set_device_index()` and will be removed in a future PyTorch release.

Detailed Documentation

Documentation

(Deprecated) Set the current device index to a given device.

`device` (`torch.device`, `str`, `int`) – a given device that must match the current accelerator device type.

`torch.accelerator.set_device_idx()` is deprecated in favor of `torch.accelerator.set_device_index()` and will be removed in a future PyTorch release.
