

GroupNorm#

<https://pytorch.org/docs/stable/generated/torch.nn.quantized.GroupNorm.html>

Description:

This is the quantized version of GroupNorm. `scale` - quantization scale of the output, type: double. `zero_point` - quantization zero point of the output, type: long.

Function Signature

```
class torch.nn.quantized.GroupNorm(num_groups,  
num_channels, weight, bias, scale, zero_point, eps=1e-05,  
affine=True, device=None, dtype=None)[source]#
```

Additional args:

Detailed Documentation

Documentation

This is the quantized version of GroupNorm.

scale - quantization scale of the output, type: double.

zero_point - quantization zero point of the output, type: long.

This is the quantized version of GroupNorm.

scale - quantization scale of the output, type: double.

scale - quantization scale of the output, type: double.

zero_point - quantization zero point of the output, type: long.

zero_point - quantization zero point of the output, type: long.
