

InstanceNorm2d#

<https://pytorch.org/docs/stable/generated/torch.nn.quantized.InstanceNorm2d.html>

Description:

This is the quantized version of InstanceNorm2d. `scale` - quantization scale of the output, type: double. `zero_point` - quantization zero point of the output, type: long.

Function Signature

```
class torch.nn.quantized.InstanceNorm2d(num_features,
weight, bias, scale, zero_point, eps=1e-05, momentum=0.1,
affine=False, track_running_stats=False, device=None,
dtype=None)[source]#
```

Additional args:

Detailed Documentation

Documentation

This is the quantized version of InstanceNorm2d.

scale - quantization scale of the output, type: double.

zero_point - quantization zero point of the output, type: long.

This is the quantized version of InstanceNorm2d.

scale - quantization scale of the output, type: double.

scale - quantization scale of the output, type: double.

zero_point - quantization zero point of the output, type: long.

zero_point - quantization zero point of the output, type: long.
