

Sigmoid#

<https://pytorch.org/docs/stable/generated/torch.nn.quantized.Sigmoid.html>

Description:

This is the quantized equivalent of Sigmoid. `scale` – quantization scale of the output tensor `zero_point` – quantization zero point of the output tensor

Function Signature

```
class torch.nn.quantized.Sigmoid(output_scale,  
output_zero_point)[source]#
```

Parameters

Detailed Documentation

Documentation

This is the quantized equivalent of Sigmoid.

scale – quantization scale of the output tensor

zero_point – quantization zero point of the output tensor

This is the quantized equivalent of Sigmoid.

scale – quantization scale of the output tensor

scale – quantization scale of the output tensor

zero_point – quantization zero point of the output tensor

zero_point – quantization zero point of the output tensor
