

# default\_placeholder\_observer#

[https://pytorch.org/docs/stable/generated/torch.ao.quantization.observer.default\\_placeholder\\_observer.html](https://pytorch.org/docs/stable/generated/torch.ao.quantization.observer.default_placeholder_observer.html)

## Description:

Default placeholder observer, usually used for quantization to torch.float16.

## Function Signature

---

```
torch.ao.quantization.observer.default_placeholder_observer[  
source]#
```

## Detailed Documentation

---

### Documentation

Default placeholder observer, usually used for quantization to torch.float16.

Default placeholder observer, usually used for quantization to torch.float16.
