

get_block_size#

https://pytorch.org/docs/stable/generated/torch.ao.quantization.observer.get_block_size.html

Description:

Get the block size based on the input shape and granularity type.

`input_shape` (tuple[int, ...]) – The input tensor shape possibly more than 2 dimensions
`granularity` (Granularity) – The granularity type of the quantization

Function Signature

```
class  
torch.ao.quantization.observer.get_block_size(input_shape,  
granularity)[source]#
```

Parameters

Return type

Returns:

tuple[int, ...]

Detailed Documentation

Documentation

Get the block size based on the input shape and granularity type.

`input_shape` (tuple[int, ...]) – The input tensor shape possibly more than 2 dimensions

`granularity` (Granularity) – The granularity type of the quantization

Get the block size based on the input shape and granularity type.
