

load_observer_state_dict#

[https://pytorch.org/docs/stable/generated/torch.ao.quantization.observer.load](https://pytorch.org/docs/stable/generated/torch.ao.quantization.observer.load_observer_state_dict.html)

Description:

Given input model and a state_dict containing model observer stats, load the stats back into the model. The observer state_dict can be saved using `torch.ao.quantization.get_observer_state_dict`

Function Signature

```
class
torch.ao.quantization.observer.load_observer_state_dict(mod,
obs_dict)[source]#
```

Detailed Documentation

Documentation

Given input model and a state_dict containing model observer stats, load the stats back into the model. The observer state_dict can be saved using `torch.ao.quantization.get_observer_state_dict`

Given input model and a state_dict containing model observer stats, load the stats back into the model. The observer state_dict can be saved using `torch.ao.quantization.get_observer_state_dict`
