

model_is_exported#

https://pytorch.org/docs/stable/generated/torch.ao.quantization.pt2e.export_

Description:

Return True if the torch.nn.Module was exported, False otherwise (e.g. if the model was FX symbolically traced or not traced at all).

Function Signature

```
class
torch.ao.quantization.pt2e.export_utils.model_is_exported(m)
[source]#
Return type
```

Returns:

bool

Detailed Documentation

Documentation

Return True if the `torch.nn.Module` was exported, False otherwise (e.g. if the model was FX symbolically traced or not traced at all).

Return True if the `torch.nn.Module` was exported, False otherwise (e.g. if the model was FX symbolically traced or not traced at all).
