

float_qparams_weight_only_qconfig#

[https://pytorch.org/docs/stable/generated/torch.ao.quantization.qconfig.float](https://pytorch.org/docs/stable/generated/torch.ao.quantization.qconfig.float_qparams_weight_only_qconfig.html)

Description:

Dynamic qconfig with weights quantized with a floating point zero_point.

Function Signature

```
torch.ao.quantization.qconfig.float_qparams_weight_only_qconfig#
```

Detailed Documentation

Documentation

Dynamic qconfig with weights quantized with a floating point zero_point.

Dynamic qconfig with weights quantized with a floating point zero_point.
