

torch.cpu.stream#

<https://pytorch.org/docs/stable/generated/torch.cpu.stream.html>

Description:

Wrapper around the Context-manager StreamContext that selects a given stream. N.B. This function only exists to facilitate device-agnostic code AbstractContextManager

Function Signature

```
torch.cpu.stream(stream)[source]#
```

Return type

Returns:

AbstractContextManager

Detailed Documentation

Documentation

Wrapper around the Context-manager StreamContext that selects a given stream.

N.B. This function only exists to facilitate device-agnostic code

AbstractContextManager

Wrapper around the Context-manager StreamContext that selects a given stream.

N.B. This function only exists to facilitate device-agnostic code

AbstractContextManager
