

torch.floor#

<https://pytorch.org/docs/stable/generated/torch.floor.html>

Description:

Returns a new tensor with the floor of the elements of input, the largest integer less than or equal to each element. For integer inputs, follows the array-api convention of returning a copy of the input tensor. input (Tensor) – the input tensor. out (Tensor, optional) – the output tensor.

Function Signature

```
torch.floor(input, *, out=None) → Tensor#
```
